

If you meet any problem, contact me freely by email: 947243303@qq.com, I have 15 years experience in this field, can quickly solve your problem in 5-10 minutes normally.

The system is very stable and reliable, it's introduced to market for years and serve a lot customers and companies, have very great feedback.

If have below problem, please check and find solutions:

1. For the database compress failure

If have below "Database compress failure", Please ignore. Sometimes customers do repeat analysis of patrol data, cause database become a little virtual bigger. Software will try to compress database. This below will **have no any impact** on the software functions.

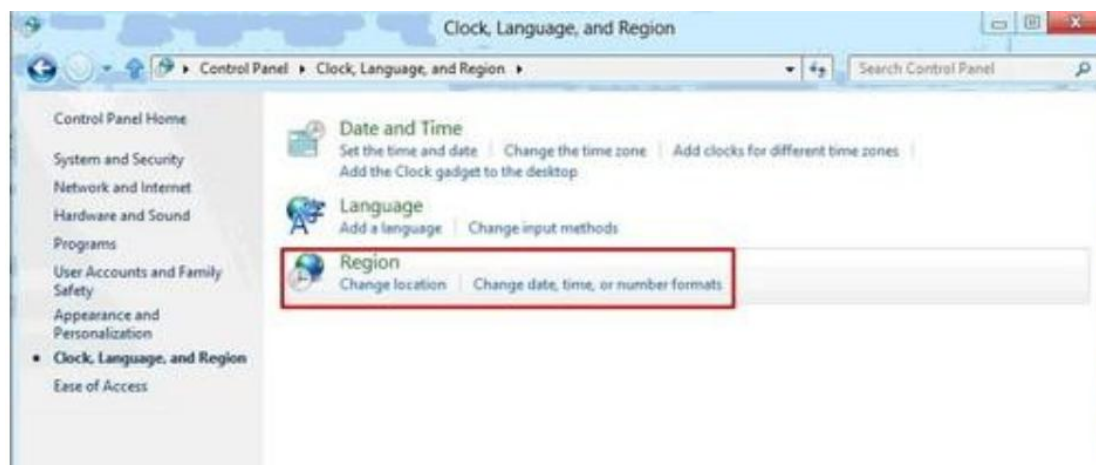

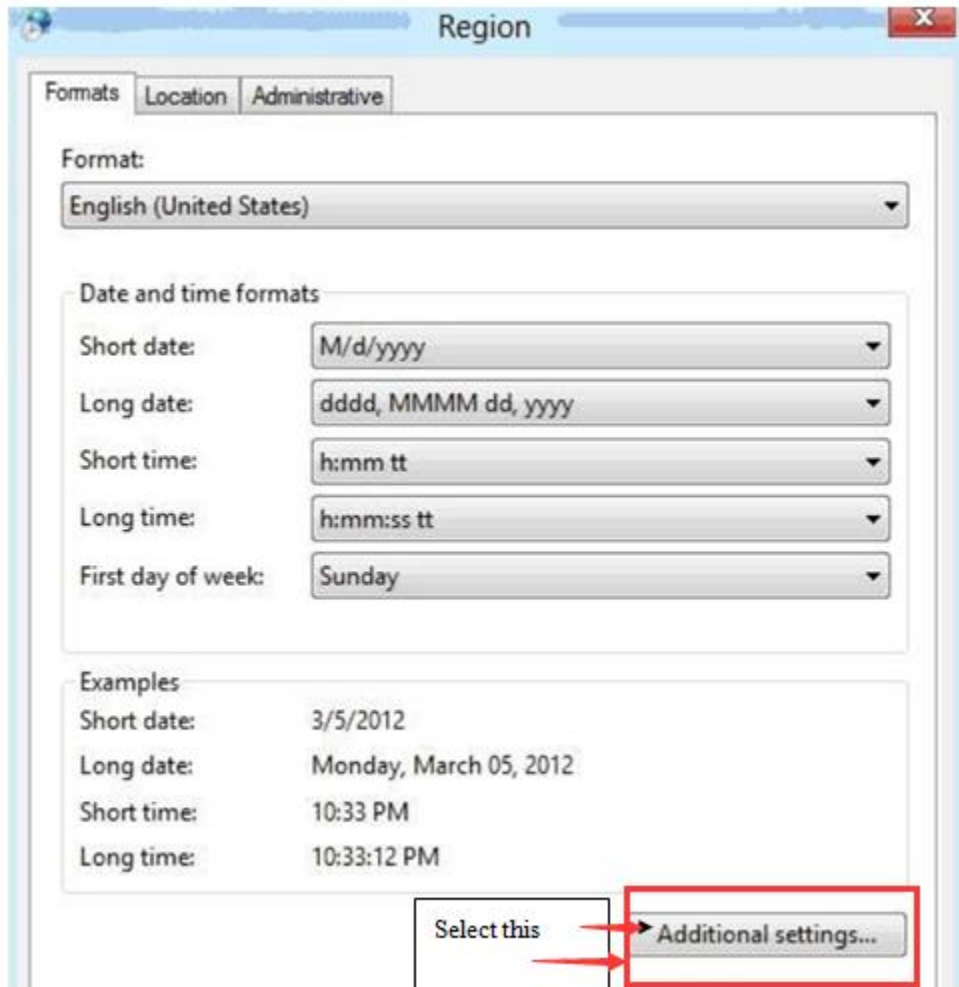

2. If have error when making patrol plan or query records

Please adjust the computer **date format** to: yyyy/mm/dd or yyyy-mm-dd

time format as: hh:mm:ss; if use am or pm, make sure just use **am or pm**, don't use other characters

Steps: Computer control panel->region and language

Change date by “-” or by “/”, not by “.”
