

User Quick Guide & Phone APP

Our support is for ever, contact us freely

How to USE Phone APP

Install the APP

The app support both iPhone and Android,
app name is: **eWeLink**

How to download APP

After install, **Register** with your email and Log In APP

On Phone, turn on WiFi

Kindly Note:

When you first time setup the phone app programming, Please make the Power Supply

near to your Router, so that it can have good wifi signal covered and can be easily added.

The Main Steps

- Download “eWeLink” app in APP Store for iOS or in Google play for Android.
- Cut off the power before installing the device. Then power it up after completing the installation.
- Press and hold the **Pair-KEY** over 6 seconds until the green LED flashing.
- The APP will auto-search and connect the WiFi power unit around you.
- Input home WiFi SSID & password. (If no password, keep it blank)
- eWelink will search the device and add it to your account, it takes 1-3 minutes. When this complete, you can give your device a name
